EXECUTIVE SUMMARY

-  Total sales amount reached **₹2.11 Crore+**.
- Total customers analyzed: **31,047**.
-  Monthly sales showed fluctuations with higher sales during the early months of the year.
-  Female customers contributed the majority of purchases (**69%**).
-  Adult age group generated the highest customer share compared to teenagers and senior citizens.

Analysis Methodology

-  Collected and cleaned sales data by removing duplicates and correcting missing values.
-  Organized the dataset using Excel for accurate analysis and reporting.
 - Used Pivot Tables and Pivot Charts to analyze sales trends, customer behavior, and product performance.
-  Performed state-wise, gender-wise, and category-wise analysis to identify key business insights.
-  Created an interactive dashboard with slicers, maps, pie charts, and line charts for visualization.
 - Generated meaningful insights to support business decision-making and improve sales performance.

Separate analysis

1. Monthly Sales Trend Analysis

Insight (So What?)

- Sales peaked in Feb–Mar, showing strong seasonal demand.

- After July, sales declined continuously.

- Year-end performance is weaker than the first half.

Recommendation (Now What?)

- Run offers/discounts in low-sales months (Aug–Dec).

- Identify peak-season factors and repeat them.

- Improve festive and year-end marketing campaigns.

VASTRA S

1. MONTHLY SALES TREND ANALYSIS

Total Amount (Monthly Trend)

Sales peaked in Feb–Mar and declined steadily after Jul. Lowest in Nov–Dec

2. State-wise Customer Distribution

Insight (So What?)

- A few states contribute the majority of customers.

- Many states have low customer penetration.

- Sales are regionally concentrated.

Recommendation (Now What?)

- Focus marketing on high-performing states for retention.

- Expand promotions in low-performing states.

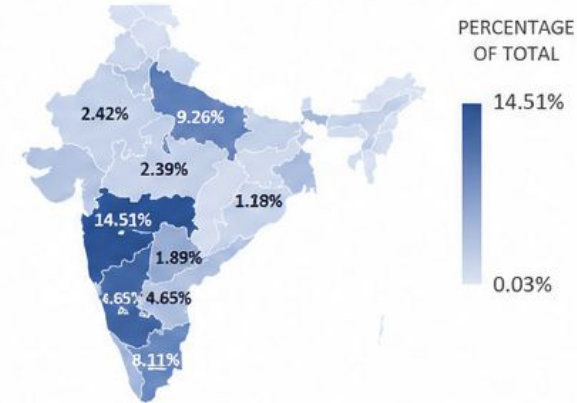

- Use regional campaigns based on customer behavior.

STORE ANNUAL REPORT – ANALYSIS

2. STATE-WISE CUSTOMER DISTRIBUTION

Customer Percentage by State

Powered by Bing
© GeoNames, Microsoft, TomTom

Maharashtra leads with highest customer share (14.51%), followed by other top performing states.

3. Size wise Sales Analysis

Insight (So What?)

- M and L sizes have the highest demand.

- XL and S are also strong contributors.

- Extreme sizes have lower demand.

Recommendation (Now What?)

- Maintain higher stock of M and L sizes.

- Reduce overstock in low-demand sizes.

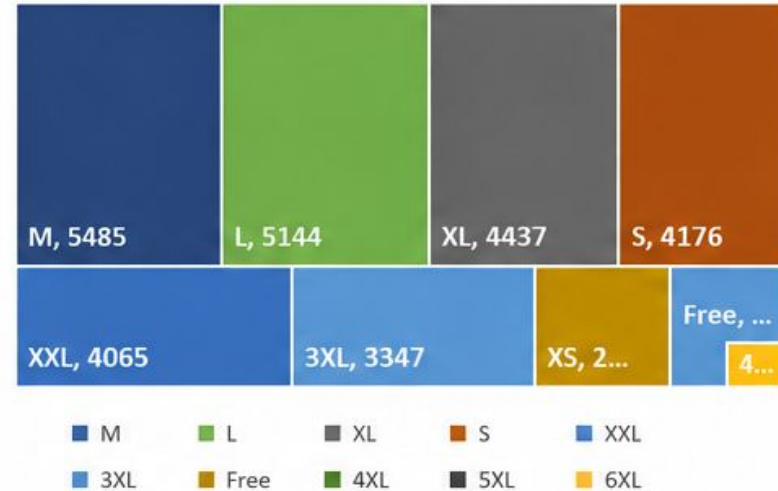

- Plan inventory based on demand trends.

ANALYSIS BY GRAPH

3. SIZE-WISE SALES ANALYSIS

Total Sales by Size

Medium (M) and Large (L) sizes contribute the most to total sales, followed by XL and S sizes.

4. Age Group Analysis

Insight (So What?)

- Adults form the largest customer segment.
- Teenagers are the second-largest segment.
- Senior customers contribute the least.

Recommendation (Now What?)

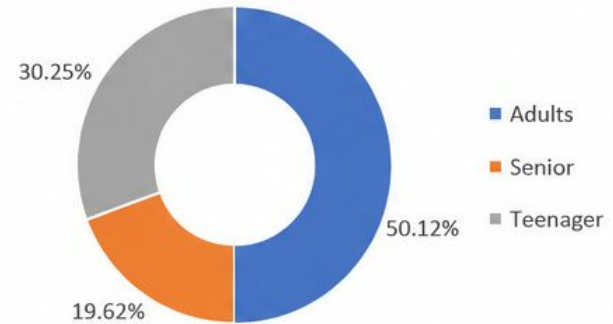

- Focus product offerings on adults.
- Create trend-based products for teenagers.
- Introduce comfort-based products for seniors.

4. AGE GROUP ANALYSIS

Customer Distribution by Age Group

Adults form the largest customer segment (50.12%), followed by Teenagers (30.25%) and Seniors (19.62%).

Gender-wise Customer Analysis

Insight (So What?)

-  Women contribute the majority of purchases.
-  Men represent a smaller share.
-  Female segment drives business growth.

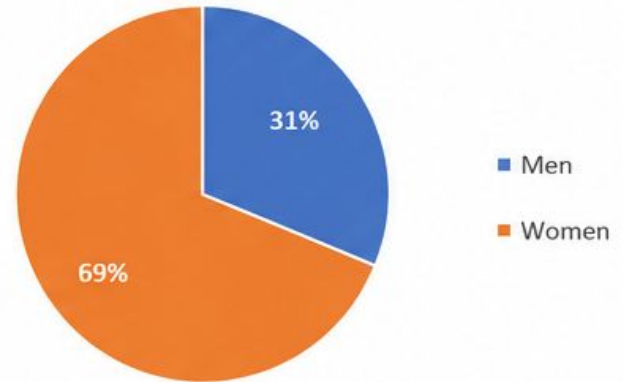

Recommendation (Now What?)

-  Expand women-focused product categories.
-  Increase marketing for male products.
-  Use personalized campaigns for women customers

5. GENDER-WISE CUSTOMER ANALYSIS

Customer Distribution by Gender

Women customers account for 69% of total customers, showing higher engagement compared to men (31%).

Insight (So What?)

- Strong annual sales with a good customer base.
-  Customer volume is healthy, but growth can improve.
-  Sales dependency exists on specific customer groups.

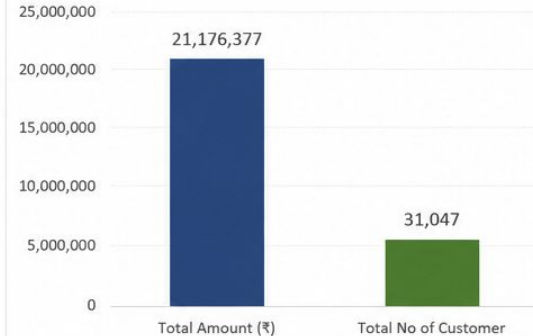

Recommendation (Now What?)

-  Increase repeat purchases through loyalty programs.
-  Expand into new customer segments and regions.
-  Optimize stock and promotions based on data trends.

conclusion

sales, followed by XL and S sizes.

6. SUMMARY – KEY METRICS

Total sales for the year are ₹21,176,377 with 31,047 total customers.
